# CRANE HOTEL

**“An unusual hotel you won’t believe actually exists“ (CNN)**

Don’t expect a mainstream hotel. It’s a crane! Three exclusive (5 \*\*\*\*\*) suites & the best underground club hidden on top of the highest monumental harbor crane. Faralda is a mind blowing and the once in a lifetime experience. Don't expect a mainstream hotel. It's excessive. You'll love it or you hate it. **Access is on request. Private & Invites only.** Rent a suite with your Lover(s) and choose your suite: 1. Free Spirit, 2. Secret Suite, 3. Mystique Suite

**Faralda Crane Hotel, the most Romantic & Inspiring place to stay**

Enjoy discreetly your romantic weekend. Right in front of the crane and your suite, boats are sailing on the always busy river IJ. Enjoy the romantic view over Amsterdam with the sunset up to the dunes at the end of the horizon. People scurry around the bustling NDSM area. This former shipyard has become a lively area with numerous trendy restaurants, cafés and (2020) the largest graffiti museum in the world. Your stay is safe. Two elevators only work with a pass. The panorama elevator to the top even stops right into your suite.

**Faralda is Amsterdam’s best kept secret**

Our guests are free spirits, creative and open-minded people: Artists, models, famous DJ’s, CEO's and even Royals. Because of its huge structure and height, a stay in the crane remains completely incognito.

Needless to say, Faralda isn't just for anyone. Our guests demand privacy. You have complete privacy because access to the crane is Private & for Invites only. The crane is optimally secured with a professional system and discretion is guaranteed. We offer a private and exclusive ambiance with full service. Security bodyguard and a hostess are on request.

Because of its huge structure and height, a stay in the crane remains completely incognito. Our guests demand privacy. The crane is optimally secured with a professional system and discretion is guaranteed. Faralda Crane Hotel is a famous landmark and an amazing experience. The Faralda Club in top of the crane houses world leading DJ's, famous artists, Free Spirits and Open-Minded people.

**What happens in the crane, stays in the crane....**

Every suite has two levels, with no less than 38 square meters. The living and separate sleeping area which are beautiful decorated and equipped with all amenities. Large windows provide an amazing view over Amsterdam and the river IJ. The port of Amsterdam is right in front of the crane. The first floor is a spacious living area, furnished with art and design furniture. Hidden behind a characteristic sliding glass panel is a bathroom with a rain shower and toilet. The shower is decorated with antique parts of an ocean cruiser.

A staircase leads to the sleeping area with a King size bed and bath tube surrounded with paintings and design. Quality toiletries are offered. All suites have an air-conditioning, free WIFI, 2 plasma television screens (bedroom & living).

As a supplement is the heated Spa pool. This hidden space on top of the crane offers the most romantic sunset with a view over Amsterdam and a sunset at the end of the horizon and the dunes. A Manual with all the information will be send after Booking & Confirmation. Enjoy your stay, it will be a once a lifetime experience, you’ll never forget.

6. Bungee An outdoor event activity outsourced by Action Events

## “The Weirdest Hotel in Amsterdam” (Urbandaddy)

Question to Edwin Kornmann Rudi, the owner: **“How did you get this strange idea?”**

*“Always the first question I have to answer....*

*The crane is a huge industrial building. A famous landmark and heritage in the highest category. This colossus inspired me. I've been a real estate developer since I was 17, so 40 years of experience now.*

*First of all, you need to be creative and a bit crazy to develop the 3 most expensive suites in top of a monumental harbour crane. I wanted to make a statement! My dream was to create a tool to contribute to the realization of my mission statement:*

### **Mission & Vision:**

Faralda makes an active contribution to the preservation of monumental real estate by restoring and redeveloping it.

Premium live stream sessions with world famous DJs are organized from the studio. The entire crane is used by leading companies as a platform for their events and meetings. Faralda has been able to realize this extensive project because we believe that any problems can be solved. We don't run away from problems, we solve them.

### **"People can Solve all problems, if they have the Courage to Communicate"**

Faralda Crane Hotel is the platform to propagate our mission statement. It's our drive. It's our passion.

All constructive and financial challenges were solved from our vision. With an initial budget of € 1, an extensive and multi-million-dollar restoration was realized. A seemingly impossible restoration and redevelopment was realized.

*“Faralda is just a tool. I want to make an active contribution to the realization of my Mission statement. To realize this goal, I had to conquer all financial and constructions challenges. I started (from Social security) with only € 1 to spend and many others to solve. These problems were immense, but we fixed it.” (Edwin Kornmann Rudi; Owner)*

### **History & Development:**

The crane is a famous heritage and one of the most published buildings in Amsterdam. But the former Crane 13 was in a deplorable state. More than 100 companies were involved to turn a piece of crap into an amazing and award-winning restoration landmark. It took finally more than 7 years of construction works, started in 2011 to turn the old industrial crane into the most unique and spoken about hotel project in the Netherlands.

The Initiator and real estate developer -main contractor was Edwin Kornmann Rudi. He is now responsible for all activities in the crane. He started 2011 and finished 2018. Even nowadays he's struggling with municipal for the commitment they gave before. The whole restoration has been an excessive and once a live time experiment. His idea to realize 3 of the utmost expensive suites in the Netherlands in top of a crane was a bite weird. The constructive challenges were enormous.

### **It is certainly set to become one of the most talked about pieces of architecture..." (Fused Magazine)**

The crane turns in the wind. The piping system with sewer, water electricity has been constructed in a gold bearing system. After 3 years the team had to deal with a pound WWII bomb. There were many financial setbacks due to safety regulations and inventions. The solutions the team had to find were unique and the financial risks have been immense. Edwin has realized the multi million project from his then welfare situation.

The NDSM is a former ship wharf nowadays full of restaurants and innovative hub of art, culture and business. NDSM is the place where innovative entrepreneurs meet to discuss business and where some of the biggest brands in the Netherlands have their headquarters.

### **Transport:**

Schiphol Airport: The train to Amsterdam Central Station only takes 14 minutes. The Crane is opposite Central Station.

Central Station: Exit on the North side (river IJ site). Take the free ferry at the utmost left to NDSM (one-minute walk). The ferry takes 10 minutes. The crane is located 350 meters from the ferry.

Free parking under the crane. There is plenty of parking place available for approximately € 8 per day/per car (reservation is not needed).

VIP's arrive in Amsterdam by (private) jet and is brought right to the entrance of the hotel by limousine, without ever being seen. Private and business flights: General Aviation Schiphol East (planes holding up to 19 passengers only). Please call and we will arrange a welcome at General Aviation Schiphol. From the airport, we can arrange a limousine to bring you to our hotel. Private boat, helicopter and limousine on request

**'WITH extravagant decor, roll-top baths and a heated whirlpool with panoramic views of Amsterdam, this swanky hotel is the height of style' (Daily Star)**

### **Awards & Press:**

Faralda Crane Hotel is heritage in the highest rank (RCE Classification). Faralda has been distinguish by the prestigious Pieter van Vollenhoven price, the Annual award for high-profile and leading redevelop projects). After being open for only a few months, Faralda Crane Hotel has been nominated for three European Hospitality Awards in 2015 - Innovation in Service of the Year, Best use of Technology and Hotelier of the Year.

**"In the past year alone, we've partied on a bus, inside a glacier, at a spooky cabin in the woods, even at an oasis in Morocco, but a party inside a crane still had us very excited." (Ministry of Sound)**

# FARALDA

# CRANE HOTEL

After a major restoration from 2011-2016, the monumental 50-metre-high crane starts its second life as a brand new luxury hot spot in Amsterdam with only 3 suites and a TV Broadcasting studio.

Curious? See the start of the 9-year lasting project at: [Restoration Faralda Crane](#)

Faralda Crane Hotel is a monumental landmark and located in the middle of the industrial NDSM heritage. The Crane is now one of the most significant developments of its time and has received unprecedented international media coverage to herald its uniqueness.

The old crane was in a profound state of repair. The foundation costs per suite are due to the high construction and restoration costs currently the highest in Netherlands; more than 1 million per suite.

The redevelopment has been a major tour de force because of the unprecedented structural challenges. Over 5 years, hundreds of contractors and subcontractors were involved. To solve all the tremendous construction challenges seven specialized construction / consultancy firms (each with their own discipline) daily advised and calculated to overcome the technical challenges.

The crane has a wind vane mode and moves slowly in the wind. A high-class piece of technology is the pivot bearing with swivel assembly where all piping work passes through. In the rotating thrust bearing are all recesses that can move independently of each other. All pipe work (17 electric groups, water drainage, sewage, internet) goes through a very small opening of less than 80 millimeters.

Immense challenges were the fire and safety requirements. In particular, the required water pressure and water capacity were a major challenge during the last year of development. Two large, pressurized water pumps ensure that the three-drench showers provide enough water. The 2,000-litre water tank for fire protection and the 1,500-litre spa pool on the rooftop are provided with sufficient water.

Another unique and distinctive case is the New Business Model necessary to gain control over the extremely high costs.

1. Financial commitment from (sub) contractors. They were all paid after their services.
2. The marketing exposure has been determined by value.
3. 40 stakeholders signed a bartering deal (all of them international based companies). Their goods and services provide the demands in the high-end market (see list). Only with their help the restoration project could be realized.
4. Tight supervision of the constantly changing development.

The € 150,000 quay recovery and soil remediation were no exceptional challenges, but the 500-pounder and the bureaucracy which caused a tremendous major cost were.

Construction costs eventually amounted to more than € 4.000,000, - Thus the building costs per suites are among the highest in the Europe. It took more than 6 years from initiation of the project to the realization and operation of the hotel. The former crane 13 has been made in 1951 by Hensen Ltd and is a national monument now.

Architectural vision: The crane has been brought back to its original color (blue-grey and yellow). The new additions are red (according vision Bernard Tschumi, I.e. Parc de la Villette Paris)

Former name: Kraan13  
Current name: Faralda Crane Hotel

Size of each suite: 40 m2 / 45 m2  
Studio: 60 m2
